

Lottochain

Fraud proof and free of intermediaries Lottery

LUCK TO EARN

Annually, lotteries
move more than

US\$ 100bi

Do you know who is profiting from this?

Welcome to the blockchain lottery universe.
Buy LTT to participate and good luck to win.

TRADITIONAL LOTTERY

They can tax winners by approximately 40%

Winning is unlikely: odds are 1 in 300 million

Millions of dollars are forgotten and unclaimed

Hardly auditable

LOTTO CHAIN

Low fees and distribution among supporters

More than 30% of participants can win

Prizes paid automatically, participants do not need to claim their winnings

100% auditable by anyone.

HOW DOES IT WORKS?

In addition to using Blockchain technology to carry out secure sweepstakes and

100%

auditable, Lotto Chain also has its LTT token responsible for ensuring full access to the ecosystem.

Imagine being a member of a lottery supported by participants from the whole world?

That is the purpose of LTT, to distribute the governance and financial participation of the results of what will be the biggest blockchain lottery.

OUR ADVANTAGES

Governance and access
to financial products

Ticket purchase

Distribution of
fees for holders

Ticket office benefits

Ticket purchase

Entering weekly blockchain lottery draws requires tickets that can only be purchased with LTT.

Ticket office

Ticket holders are LTT VIP holders, who can climb a hierarchy of incentives depending on the amount of tokens they hold.

Rewards for ticket sales under ticket office referrals:

Distribution of fees

Fees collected in the lottery are converted into passive income distribution to supporters who participate in the LTT token stake.

Benefits:

- Shortage of the token supply;
- Incentive for new holders;
- Constant evolution of long-term value;
- Passive income.

Governance & Financial products

Blockchain allows the composition of new financial solutions from auditable and anti-fraud draws, such as savings with interest draw and other instruments that are being thought for the future of our blockchain lottery. As Lottochain was created from users to users, feel like the owner of what will be the biggest blockchain lottery ever, rule over the future of new products and relevant decisions of next steps with luck to win as long as you hold LTT token.

HOW TO BUY?

LTT token is in its preliminary phase of adoption, where the focus is on decentralizing token ownership with as many supporters as possible. Supporters will have exclusive progressive discounts for early supporters with daily variations.

Estimated value for
LTT release:

US\$ 50

Discount for 1st Lot: **98%**

Last batch discount:

1%

lottochain

What is an ICO?

A way for a new crypto venture or project to raise funds by selling "newly minted" coins.

Why support projects in the ICO phase?

As long as it is compatible with your investment thesis, join a crypto project in the ICO phase means extracting greater use from it in view of the opportunity to join an asset in the initial period.

Pay attention to these criteria:

Maximum supply

Road Map

Safety

Community

Incentives

WHY LTT TOKEN?

LTT Token Supply

Maximum: 10 million
